Subject: Swisher Commercial - Commercial Real Estate Press Release

As **Swisher Commercial** celebrates its 40 Year Anniversary, we are pleased to announce the addition of Charlie Koenn to the **Swisher** sales and leasing staff.

Charlie Koenn joins the **Swisher** team specializing in the sale, investment and development of vacant land with experience in all facets of commercial real estate, investment and development properties. Koenn has been a licensed realtor since 1996, an Associate Broker since 2004, and is currently a Certified Commercial Investment Management (CCIM) Candidate, anticipating certification early this year. Charlie has further enhanced his real estate education by receiving his Graduate Real Estate Institute designation.

Charlie has experience in all facets of real estate with commercial, investment, development and vacant land properties. With his knowledge and familiarity in vacant and farm land, Charlie has helped several land owners in Washtenaw, Jackson, Livingston and Ingham Counties sell their property in ways best suited for each of his clients. Charlie grew up on his family's progressive dairy and crop farm in the Chelsea area, but watching his grandfather Herman sell real estate for 40+ years is what inspired Charlie to get into the business.

Swisher Commercial is a full-service, independent brokerage firm specializing in commercial real estate and investment properties. Services include sales, leasing, property management and consulting, as well as sales of vacant land. **Swisher Commercial's** longevity in the industry and commitment to the community supports its strong reputation for integrity, experience and results. It continues to be one of the largest commercial brokerage firms headquartered in Ann Arbor and serving Washtenaw, Lenawee, Livingston and Jackson counties.
